Large yard, large workshops and lots of cranes !

This property is a rare gem that has come onto the market, situated in Roodekop the property offers approx 18 286m² under roof on a large 79 376m² stand. There are two main factory buildings located own the centre of the property which have overhead cranes, excellent height to the eaves and Superlink access. There is a smaller workshop at the front of the building with offices attached.

The property has a number of external overhead gantry cranes allowing for easy loading and offloading of products, with endless storage space ideal for big items, steel or anything that is not at risk if left in the elements. This property allows for versatile business operations and is fitted with a 1mva power supply.
